HARQ Retransmission Together With Original Transmission on the Same Subframe for C-V2X Communication

K. M. A. Yeaser, M. A. H. Emon, Tahmid Zaman Tahi, I. R. Aninda

Skills

Wireless Communications and Signal Processing

- RIS/IRS, near-field localization, MUSIC, MVDR, AoA and range estimation, C-V2X, 5G NR-V2X, HARQ, modulation classification, link budgets, and SNR analysis.

Machine Learning

- PyTorch, TensorFlow, scikit-learn, CNNs, transformers, diffusion models, reinforcement learning, deep Q-learning, representation learning, and hyperparameter optimization.

Scientific Computing and Experimentation

- Python, MATLAB, Simulink, NumPy, pandas, Matplotlib, C, shell scripting, Git, and reproducible research pipelines.

Networking and Systems

- Cellular networking and planning, IoT/NMS, network security, anomaly detection, performance analysis, Atoll, Cisco Packet Tracer, Linux, and user acceptance testing.

Research Engineering Tools

- GitHub, LaTeX, HTML/CSS, Node.js, PSpice, Proteus, PSIM, ARM Keil, and JMP.

Awards

Graduate Fellowship Award

The George Washington University

OIC Scholarship

Islamic University of Technology

Higher Secondary Board Scholarship

Dhaka Education Board

Experience

Virginia Commonwealth University, Graduate Research Assistant

Jan 2025 – present

- Conducting research on intelligent reflective surface-assisted wireless communications with Dr. Yanxiao Zhao.
- Developing learning-enabled signal-processing methods for wireless localization and communication systems.

The George Washington University, Graduate Teaching Assistant

Jan 2023 – May 2024

- Led recitations and supported courses in circuits, signals and systems, digital signal processing, engineering analysis, and computer organization.
- Assessed coding and mathematical work and provided technical support to approximately 60 students per semester.

ADN Telecom Limited, Engineer, Network Infrastructure

Nov 2021 – Dec 2022

- Developed link budgets, analyzed SNR, and performed network planning, surveys, troubleshooting, and technical documentation.
- Supported an IoT-based network-management deployment monitoring power devices across 41 universities.
- Conducted user acceptance testing and collaborated on network-infrastructure delivery.

Languages

Bengali

- Native proficiency.

English

- Fluent proficiency.

Hindi

- Professional working proficiency.

Interests

Research and technical writing

- Wireless AI, signal processing, connected systems, and research communication.

Community and environmental activities

- Student organizations, editing, and environmental outreach.
